

AIRPORTS

AT A GLANCE

Dedicated to serving the specialist insurance needs of Airports, Allianz provides a wide spectrum of risk-transfer solutions and services to many of the world's largest airport providers.

AGCS has a long-standing history of supporting bespoke Airport risks worldwide. Combining many years of technical experience with market-leading financial strength and the ability to cover the largest and most complex risks.

We offer you and your brokers our extensive portfolio of complementary products and services through a single point of contact. These solutions cover the range of air, land, sea, credit, pension and employee benefits requirements essential to your industry. Moreover, we look to provide long-term relationships aligned with your needs.

UNDERWRITING

We can provide you with the highest expertise in both underwriting and claims. On the underwriting side, we have sector specialists in the Aviation, Property, Liabilities and Engineering. Equally, the claims service is the litmus test of any client and insurer relationship. The effective management of claims is a vital part of our business and represents a key element of our service to clients.

CLAIMS

We have a highly qualified claims team which serves all client and product sectors. Through working in close liaison with our Allianz network, we offer a worldwide service. We recognise every client and every claim is different. Adopting a simple and transparent approach based on two way communication, our aim is to provide exemplary service through direct contact with an allocated claims handler. The team has an excellent track record in the effective leadership and management of large complex claims

RISK MANAGEMENT

We can provide you access to a range of technical services from risk management professionals working for Allianz Risk Consulting. Programmes will be designed around your needs and blended between lines of business. They will work closely with your business providing bespoke solutions based on previous expertise and your needs.
